*LYX office and production plant*

## *Now your Kingdom is going outside.*

We are fulfilling the expectations of those who have been looking for such a product. Specially for all enthusiasts of cooking and being outdoors, LYX has prepared a unique collection of professional outdoor kitchens. Our modern garden kitchens are modular structures that perfectly fit into the aesthetics and character of modern homes and carefully arranged houses and gardens.

All modern garden kitchens available in our offer are not only functional and thoughtfully equipped with everything necessary to properly fulfill their functional role, but also extremely aesthetic and visually attractive. Their modular nature allows each customer to independently create a personalized kitchen arrangement in accordance with their preferences and the amount of space available.

## *The entire manufacturing process in one hand.*

LYX garden summer kitchens have a different structure than popular brick garden kitchens, but their unique design can successfully imitate the appearance of natural stone (slate and granite) or steel (Corten). Each of our garden kitchens is also covered by a 5-year warranty, which is the best confirmation of their high quality and durability of the solutions used for the construction.

Signed with the LYX® logo, outdoor kitchens come in rich, varied colors and with various finishing effects, which allow their design to perfectly match the style and decor of any modern home and garden.

The LYX® outdoor kitchen allows you to break with the ubiquitous catalog patterns and lets you create a truly individual, exclusive space, which will also be functional and practical.

YOUR OWN OUTDOOR KITCHEN

*Fulfill your dreams*

ALFA 240

BETA 300

GAMMA 360

DELTA 420

## Construction

Durable galvanized and powder coated steel.

Stable, well-thought-out and 100% weatherproof steel construction. Made from 1 mm galvanized sheet and equipped with accessories made from stainless steel and aluminum. The whole thing is covered with a thick layer of matt and specialized powder paint with a light structure, which gives unique properties and high aesthetics.

## Fronts and countertops

Compact 12mm HPL laminate.

HPL LYX™ is a material that is ideal for the construction of outdoor furniture for everyday use. In Elixa™ kitchens, we use it to make fronts, sides and worktops. A specially selected range of decors is adapted to external conditions and is safe in contact with food.

All HPL LYX™ products receive a Sanitized® antibacterial treatment that reduces the growth of 99,9% bacteria

## Color

Other colors available on request.

\* Custom decors.

ROCHE offers a dented mineral aspect resembling natural stone.

LINIMAT is a matt, linear finish that gives character to the different wood species.

FA is a light satin finish with an extra fine grain.
