

BinCover™ HATCH

CONSTRUCTION

BinCover™ have a universal size for baskets from 12-240 liters. In addition to the aforementioned basic design solutions, in this version also the front doors are made of galvanized steel, which perfectly match the elegant and minimalist character. A stable steel structure ensures quality and failure-free operation for many years. The door has an integrated opening handle. In addition, the LYX brand logo burned in the handle perfectly completes the whole.
